

LETTER OF RECOMMENDATION

08/02/2003

To Whom It May Concern:

It is with great pleasure that I offer this letter of recommendation for Brooke Wolfe. I have known her for the past year and would recommend her for consideration into your company. I have instructed Brooke throughout her stay at ITT Technical Institute in such disciplines as: Computer Animation, Interactive CD Design, Website production and Video editing and production.

Brooke is a very quick study; she always seems to catch on to even the most daunting tasks. She is always very punctual and has a positive attitude. It is always nice to have someone with Brooke's leadership skills in your class to help out when you are otherwise detained. She is very self sufficient, and understands the importance of hard work. She has shown great promise in her video production work, design abilities, character and broadcast animations.

Over the course of her studies at ITT Technical Institute, Brooke has developed the skills that I feel will be necessary for her to succeed in any graphics department, video production house, animation studio or broadcast facility. If you have any questions at all, please contact me at (509) 926-2900.

A handwritten signature in dark ink, appearing to read 'Colin C. Anderson'.

COLIN C. ANDERSON  
Multimedia Instructor
