Summary

Web Developer hybrid desiring full-time employment building Multiple Page and Single Page Applications — specializing in pixel perfect front-end development and design as well as user interface testing and analysis. Experienced in philanthropic fundraising with a demonstrated history of working in the Nonprofit Software Solutions Sector as well as the Multimedia and Design Industry. Proficient in jQuery, HTML5, CSS3, Adobe Photoshop and Illustrator, JavaScript, React and Firebase. Expert knowledge in WordPress production and development, visual design and digital prepress processes. Known for generating increased profits and larger audiences through advertisements, with more than 11+ years of creative print and web design experience in fast-paced environments and 8+ years of experience as a professional freelancer, bringing high quality digital assets to the table for growing businesses. Armed with a background in cinematography, video editing and animation.
